DIXON® ZTR®

NON-CURRENT ATTACHMENTS

DIXON® ZTR®**NON-CURRENT ATTACHMENTS****IMPORTANT:**

Snow blades, LIKE ALL ATTACHMENTS, are designed to fit current production models **ONLY**.

1985-1988 SNOW BLADE MOUNTS

In order to install a snow blade on a 1985 30" or 42" cut model, addition parts are required.
The parts listed below are NOT SHIPPED with the current snow blade.

Consideration must be given to the condition of key components such as the **transaxle and engine** of older models prior to installation of a snow blade.

Optional wheel weights and chains will generally be required to insure performance of mower equipped with snow blades.

Models ZTR 308-311	1985-1988	P/N Required = 6706 Snow Blade Mount Bracket
--------------------	-----------	--

Models ZTR 424-426-427-428	1985-1988	P/N Required = 6705 Snow Blade Mount Bracket
----------------------------	-----------	--
